OBJECTIVE

Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals.

EXPERIENCE

Web Developer Intern|Edureka.co (FEBRUARY 2022 - OCTOBER 2023)

- Investigated resulting impacts on application concurrency to improve procedures.
- Pitched feature improvements to developer team for use in applications.
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Followed best practices for software development and web security.
- Attended development programs to gain competencies and boost skills set.
- Studied user requirements to gain strong understanding of project initiatives and deadlines.
- Adapted quickly to constantly changing, deadline-driven environment.
- Worked closely with developers on creating new code.

COMPETENCIES

- SOFTWARE BEST PRACTICES
- CRITICAL THINKING
- SELF-MOTIVATED

INTERESTS

Cooking Food
Listening music

EDUCATION

MCA IGNOU
JULY 2022 TO JULY 2024
DELHI

CERTIFICATION

REACT JS
JAVASCRIPT
Node.js, Express.js, MongoDB
HTML & CSS

SKILLS

- HTML
- CSS
- BOOTSTRAP
- JAVASCRIPT
- NODE .JS
- MONGODB
- EXPRESS
- REACT.JS
- GITHUB

PROJECTS

Zomato App

Developed a full-stack restaurant discovery and food delivery Zomato application, incorporating modern web technologies to provide users with a seamless and interactive dining experience, implemented a robust **filtering and sorting system** using React for the front end and MongoDB on the back end. Users can efficiently discover and choose restaurants based on various criteria such as cuisine, ratings, and location, enhancing the overall user experience.

Banking App

Developed a responsive online banking platform to provide customers with a secure and accessible interface for managing accounts, conducting transactions, implemented a mobile-first approach using **Bootstrap's grid system** to ensure seamless responsiveness across various devices.

Weather App

For this project, I designed and developed a dynamic weather app utilizing **HTML, CSS, and JavaScript**, providing real-time weather data and user-friendly features.

Dictionary App

Created a Dictionary App using **React with the integration of an API** can be an exciting and educational project. This type of application allows users to search for word definitions, synonyms, antonyms, and more, making it a valuable tool for language learners and enthusiasts.

Netflix Clone

Developed a full-stack video streaming application inspired by Netflix, leveraging **React** for the front end, **MongoDB** for the database, and **Node.js** for server-side functionality, Implemented a sophisticated recommendation connection using React on the front end and MongoDB on the back end. Utilized user viewing history and preferences to dynamically suggest personalized content, enhancing the user experience and engagement.
